MEMORANDUM FOR: Assistant Director, Office of Special  
Activities, DD/R

SUBJECT : Request for OXCART clearances

1. Various NPIC components are constantly called upon by OSA for support of Project OXCART. Usually such support requires extensive man hours of work and is on a short dead-line basis. In the past, NPIC has been able to meet such requests provided sufficient lead time was available to enable OXCART-cleared NPIC personnel to perform the requested support functions in addition to their normal work load.

2. The NPIC requirements have now reached the point where insufficient NPIC personnel are OXCART-cleared to permit NPIC to continue to render OSA the same quality and quantity of support rendered in the past. Accordingly, it is requested that OXCART clearances be granted to the NPIC personnel listed in the attachment, all of whom already hold IDEALIST, CORONA and ARGON clearances. These individuals have been carefully selected by Senior NPIC Officers and have been approved by the Operations Officer, NPIC, as requiring OXCART clearances to adequately provide support to OSA.
